Come with me...
your appearance is pretty un-cool

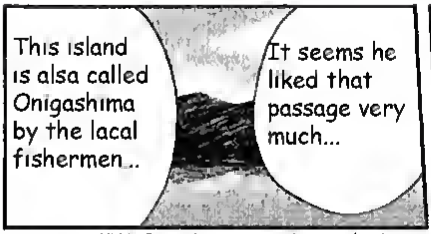
Half-naked
半裸ー
11
Hey, Yuu...
just what is...
this place

It's name is Monaki Island

You can see his works all throughout the island, so you should take a look
Because this is my secret place... it's not marked on any map

A painter bought this to use as an art studio
Though nobody lives here anymore...

Search for Amitabha's profit
Don't stray from the path of the Gods
If God and Buddha sing
They shall destroy the southeastern demons ..



*TN: Onigashima means deman island

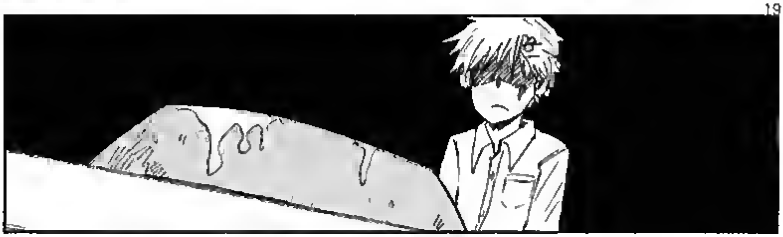
To think there was such a big mansion in these mountains..
This is the old Imari house
The owner of this island was Imari Genjuurou
Woah
It's worth 2 million
Bad taste...
Seriously?
How do I soy this?

Hey...
What's up with this room?
Some-thing wrong?

18

Well then,
How about we take a break?
It's no longer used, huh?
どんびき
This is the art studio?
The master of this place what kind of guy was this based on his personality?
Shutup



This sea cucumber's not looking too great in fact it looks like poop!
This is a specialty over here so it's supposed to be good
Umm...
Hey..
You're hungry right..?
No need to hold back..eat!
Who could?!
What was that!?
That's suprising
And it the way you eat it is strange like Ehomaki*

*TN: Ehomaki is a sushi roll eaten during Setsubun

Don't be silly
Strange guy
うーん
Does that painting bother you?
"The boy of woe"
It gives the feeling of intimacy, much like this environment
Not really

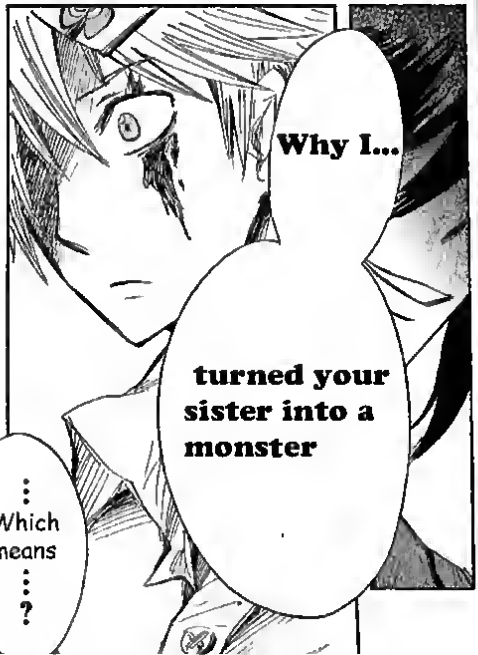
More importantly, there are a lot of questions I want to ask you..

Things you want to ask me...
I wonder what you want to know...?



Why I...
turned your sister into a monster
...Which means...?

I don't feel...
anything...

What did you say..?
Yume
Yau...
just now,
That day at the park
Said she saw red butter-flies
22
After she saw the red but-terflies Yume...
was bitten by an in-fected dag...
You...did
Said he saw everything through the butterflies
said that the red butter-flies were his cells
And then when we met this guy..

You did this to Yume?!
I'LL FUCK-ING KILL YOU!!
BU
CHI

Ah ha ha, sarry sarry
Yau're quick ta get fired up at the mentian af yaur sister
That's very interesting ta me
Shutup...
What da yau knaw.
I've...
Since Yume was barn 16 years aga...
It's always been just the twa af us...
Why Yume...
Why did yau make my sister a manster?
Yau, Maria, and the arganizatian...
What da yau want...?
What exactly do you want?!

Give Yume back to me!
I'm begging you....
Yume...

.....I'm sorry...
is probably what I should say...
.....

But there are too many things you don't know
!
I'm very annoyed by that

To begin with, the Pupa virus?
Only the others and I know...
Why do you think that organization is trying to use the Pupa virus?
It's you who knows nothing

The you right now who knows nothing is po-thetic
And then, there's hoppiness
……っ
Then....
Do you wont to see your sister?
meet her ond turn her mind bock into o hu-mon's?
Are you ready to know the truth?

?
Even knowing the truth, if you still want your sister
I'll guide you to her
You can try out the method there
Well, it might be more of a risk
But you don't have the anti-pupa medicine anymore
that was supposed to be the only way
I can't guarantee what will happen
You...
Why...
to me.

28

More or less I have sympathy for you...
Maria was a victim of that too..

That's why, I'll especially tell you...
About Maria and about me
And...
The truth about Pupa

It began here, on this island
It was 30 years ago...
30
In the depths of this island
the two monsters deeply asleep and...
coming to this island by coince-dence..
those four..

hey Asunya here! Wheew sorry this took so long, I was away for a while with no internet and this chapter was killer on my limited japanese knowledge!! heheh I spent a good while on a few of these sentences (lots of plotty things)....I hope that you can understand them enough though and sorry for any mistakes!!

A kind individual informed me that the quality of these will probably never be any better...so I hope you can stick with me through the end even if my raws aren't an amazing quality! I do try to fix them up and I think I've made them look better then when I first started XD

This is the final chapter of volume 2 so enjoy! I don't really have exact days that I can tell you for the next chapter to be out since I sort of do them on a whim...but it will be no longer than a week I'm sure..

Asunya
